### CAREER OBJECTIVE

---

I have 2 years hands on experience working across the full stack developer. I have built a few projects by myself and I am looking for an entry-level position to kickstart my career in Web Development. I wish to work in a dynamic organization that will contribute to my professional and personal growth while I contribute to the growth of the company.

### PROJECTS

---

#### Shopper - MERN Ecommerce App. [Live](#)

- I have created an ecommerce app using MERN stack technology with Braintree/Paypal payment integration.
- Completed all common features like Add to Cart, Filters, Signup & Sign In, Logout, User and Admin Dashboard.

#### Movix - React js Movie App [Live](#)

- I have created a Netflix clone with the help of TMDB api, and I used React.JS, SCSS to create it.
- Completed all common features like Explore Single Movies & TV Shows, Filtering options to view day & week, Trending, Popular And Top rate, Watch trailer And Upcoming Movies.
- Created a Responsive and user-friendly user interface.

#### React js Ecommerce App [Live](#)

- I have created a Responsive and user-friendly Ecommerce Website Using React js, Tailwind CSS And Redux Toolkit.
- Implemented Add To Cart Functionality.
- Added Remove To Cart and place Order Functionality.
- Added Signup And Signin Functionality.

#### React Js Video Sharing App [Live](#)

- I have created a Video Sharing App Using React js, Tailwind CSS And Rapid API Data.
- Implemented Functionality to Play Videos, How many Subscribers, Likes and Views.
- Implemented Functionality to Search Videos.
- Included the Suggestion Videos Functionality.
